

# RCS Mobile Solutions

Save time and money with data right at your fingertips. Our times demand that you are faster and more effective and often that you can be so even with scarce resources at your hand.

## RCS Mobile Solutions

Therefore RCS IT offers Mobile Solutions to your company for you to save time and money. The mobile user can perform his work in a fast and simple fashion, because the mobile employee has all information right at his fingertips.

There are great advantages in the daily by automatic data collection with handheld terminals. A mobile handheld terminal is a work station that can be wireless integrated with the ERP software in the company for instance Microsoft Dynamics C5 or SAP Business One.

## With RCS Mobile Solutions you can

- » Bring out products
- » Receive products
- » Regulate prices
- » Create new customers on the spot

# 3 Good Reasons

1. The mobile employee has all information right at his fingertips.
2. The daily task can be executed without being tied to the office.
3. You save time and money with the mobile solutions flexibility.

That makes it simple and intuitive to perform the daily tasks without being tied to the office. In a world where flexibility is the outmost important factor, this advantage that you can work anywhere is an important reason to make your employees mobile.
