

# Direct Debit Plus

RCS IT has created Direct Debit Plus to the companies that have many and diversified customers.

Direct Debit Plus ensures an overview of the economy of the company and eases the burden of collecting payment from a number of clients.

## In Direct Debit Plus you can

- » Send a bill to the customer and at the same time send an electronic request to the customers' bank and hereby ask them to make a funds transfer instantly.
- » Create and close down customers automatically, when the customer has approved the registration.
- » Charge the customer automatically, when the customer has approved the registration.
- » Keep track on which customers you can charge automatically.
- » Search the invoices that you can send electronic request on and charge.

# 3 Good Reasons

1. You prevent loss and delayed payments, because you can charge money electronically easily and in a simple fashion. It is particularly useful for subscriptions.
2. You can quickly create new customers and close down old ones..
3. The module is perfect for the company that have many and diversified customers.
